

WEATHERPROOFING ADVISORS LIMITED

Teledyne Gas Measurement Instruments Ltd, Inchinnan

www.weatherproofing.co.uk

Weatherproofing Advisors (WPA) were successfully appointed out to carry out the roof refurbishment works (app. 2300m²) for Teledyne Gas Measurement Instruments Ltd.

The main warehouse and office roofs had been experiencing water ingress issues which were causing disruption to daily operations.

The Client required a solution which had minimal impact on internal operations and could provide a long-term solution for the building. The works involved encapsulation of the existing asbestos cement roof with a new plastisol coated steel profiled sheet and GRP rooflights.

The existing metal gutters were lined with a high-performance liquid coating system. A new galvanised steel access ladder and permanent edge guard handrail system was installed to provide safe access for ongoing maintenance requirements.

A new high performance bituminous felt system was specified to the office roof areas. Following a site inspection survey, several localised areas were identified as being problematic and these areas were cut out and replaced with new insulation. The remainder of the roof areas were overlaid with WPA working in close connection with the clients M&E representatives.

The client is extremely happy with the completed works which were carried out during a challenging time of year. The works involved regular interface with Client representatives and ensuring that the building remained watertight throughout the refurbishment period.

The site manager commented on the positive attitude of WPA personnel and the safe manner, in which we conducted our business throughout the project. GMI are delighted to have a building which is now leak free, safely accessible and guaranteed for a period of 20 years.

WEATHERPROOFING ADVISORS LIMITED

Setting new standards for the roofing industry

Established over four decades, Weatherproofing Advisors continue to raise the bar with respect to their technical and service capabilities.

Specialising in the maintenance and refurbishment of roofing and cladding, Weatherproofing Advisors have built their enviable reputation around their passion for providing their customers with unparalleled levels of service.

Service the WPA way Our culture of continual improvement and going the extra mile for our customers and colleagues alike has enabled us to develop a true and lasting partnership with many of our clients.

Our customers say we bring real value to their business – over 93% of our customers said we had provided excellent levels of service in relation to quality of works, health and safety, communications and customer care.

All sectors covered from service centres across the UK
